

Club de Vaccinologie

January 21 - January 23, 2015
Institut Pasteur, Paris, France

Institut Pasteur

WELCOME ADDRESS

Christian Bréchet, Director Institut Pasteur

OPENING LECTURE : Rino Rappuoli , Novartis, Italy
Vaccines, new opportunities for a new society

Early registration: december 5th, 2014

**Abstract submission for posters and
short talks: december 15th, 2014**

<http://www.sfi-immunologie.com.fr>

SESSION BASIC IMMUNOLOGY

Christine-Agnès Reynaud, France

*Molecular and cellular strategies of development and
diversification of B lymphocyte subsets*

Matthew Albert , France

*Boundaries of a Healthy Immune Response to
Complex Stimuli*

Darrel Irvine, USA

Engineering immunity with "hitchhiking" vaccines

Hugo Mouquet, France

Human Antibody Response to HIV-1

Reinhout van Crevel, Netherlands

*BCG-induced trained innate immunity in monocytes
and NK-cells*

SESSION CUTTING EDGE

Anavaj Sakuntabhai, France

*How transcriptomic study helps finding new
concept for dengue vaccine development*

Hans Nauwynck, Belgium

*Tailoring vaccines by a profound knowledge of
pathogenesis and immunity in veterinary medicine*

Ugur Sahin, Germany

*Targeting the Mutanome for Individualized
Cancer Immunotherapy*

Béhazine Combadière, France

Skin vaccination by omics analysis

Andrea Cossarizza, Italy

*Hyper-parametric analysis of immune cells:
the CYTOF approach*

CLINICAL TRIALS

Rodolphe Thiebaut, France

Dynamical modeling in immunology and vaccination

Audino Podda, Novartis, Italy

Development of new vaccines against Enteric Fever

Heinz-J. SCHMITT, Pfizer, EU

Phase III : Capita

Bruno Guy, Sanofi-Pasteur, France

Dengue Vaccine: an update

Steffen Walter, Germany

*Cancer immunotherapy - from off-the-shelf to actively
personalized*

Nathalie Garçon, Bioaster, France

Title to be confirmed

FUTURE CHALLENGES

Maria Rescigno, Italy

*Interplay between gut microbiota and APC: impact for
vaccination strategies?*

Barbara M Bröker, Germany

*Human immune memory of Staphylococcus aureus:
insights for vaccine development*

Brigit Weinberger, Austria

Vaccines for elderly

Peter Aaby, Denmark

The non-specific effects of live and inactivated vaccines

KEYNOTE LECTURE:

Rafi Ahmed, Emory Vaccine Center, USA
"On CD8 T Cell Memory"

ORGANIZING COMMITTEE: B. COMBADIÈRE AND A. PHALIPON

Scientific Committee : B. Autran, B. Combadière, B. Dubois, M. Girard, G. Inschaupé, G. Kroemer, O. Launay, C. Leclerc, C. Loch, P. Moingeon, A. Phalipon, I. Schwartz, E. Tartour
